INDEX.

Vol. CXIV.

Illustrations.

Names.

A

ADAMELLO Hydro-electric Plant, 293, 319, 349, 373, 401 (*Two-page Supplement, October 4th*, 1912)
Adamson, D., on Wire Ropes for Lifting Appliances, &c., 159
Adamson's 120-Ton Electric Travelling Crane, 231
Allen Straight Link Motion Bench, 81
Alley and Maclellan's Sentinel Meter, Steam Stop, and Surplus Steam Valves, 410, 411
American Earthwork Machinery, 145, 168, 193, 216, 268, 278, 336, 363, 471
American Locomotive Company's Large Mallet Locomotive and Tender for the Virginian Railway, 282 (*Two-page Supplement, September 13th*, 1912)
Anderson, J. W., on Vapour Compression Refrigerating Machines, 576, 581, 669
Anderston Foundry Company's Coke Fuel Gas Engine, 286
Andrews, J. H., on Nitrogen and Iron, 424
Archdale's Capstan Lathe and Sensitive Radial Drilling Machine, 412
Archdale's Milling Machine (xviii, *Twenty-page Supplement, October 18th*, 1912)
Armfield's Governor Gear, 432
Assuan Dam, 671
Ashton-under-Lyne, Stalybridge, and Dukinfield Waterworks, 300, 302, 304
Asquith's Double-spindle and Girder Radial and Vertical Drilling Machines (vi and xiii, *Twenty-page Supplement, October 18th*, 1912)
Atropo, Italian Submersible, 49
Austin Canal Excavators, 363
Aveling and Porter's 3-Ton Petrol Wagon, 19

B

BACHELETS' Levitating Frame of Aluminium, 420, 421
Bagley Bucket Excavator, 193
Ballard, P., on the Hob and the Gear, 221
Bateman Planing Machine, Smith and Coventry, 380, 381 (xv, *Twenty-page Supplement, October 18th*, 1912)
BE2, Royal Aircraft Factory Biplane, 513, 536
Beatty's Locomotive, 5
Belfast New Graving Dock, W. R. Kelly, 182 (*Two-page Supplement, August 16th*, 1912)
Belsize Chassis, Engine and Gear-box, 512
Bengal-Nagpur Narrow-gauge Locomotives, 680
Bennis Coking Stoker, 63
Bergmann Single-phase Locomotive, 11
Bethlehem Steel Company's Works, 118, 122; (Letter), 259 (*Two-page Supplement, August 2nd*, 1912)
Beyer, Peacock's Locomotive for Natal, 4
Beyer, Peacock's Locomotives for the New South Wales Government Railways, 498
Biaschina Hydro-electric Station, 482 (*Two-page Supplement, November 8th*, 1912)
Blankenese–Hamburg–Ohlsdorf Single-phase Railway, 170
Boby's Water Softener Scoop, 458
Bolinders' Box Board Sawing, Planing, and Jointing Machine, 308
Bombay Water Supply, 87
Bosch Magneto Company's Lubricator, 127
Bradford Sewage Disposal Works, 484, 494
Bramhope Tunnel Workers' Memorial, 645
Brett's Drop Hammers, Motor Driven, for South America, 423
Britannia Works, Middlesbrough, Generating Station, 218, 226
British Machine Tools at the Olympia Exhibition (*Twenty-page Supplement, October 18th*, 1912)
Brown–Boveri Locomotive, 11
Buckton's Slotting Machine, Motor Driven, for Darlington Forge Company, 602
Buckton's Universal Radial Drilling Machine, 174, 176
Buenos Aires, Tramway Works at, 520, 525
Burlat Rotating Engine for Aeroplane, 517
Burmeister and Wain's Large Crank Shaft Milling Machine, 366
Burton, Griffiths' Rhenania Gear Hobber, 460
Burton, Griffiths' Universal Radial Drilling Machine, 460
Burton, Griffiths' "Victor" Automatic Machine (i, ii, and iii, *Twenty-page Supplement, October 18th*, 1912)
Butler's Duplex Boring and Turning Machine (vii, *Twenty-page Supplement, October 18th*, 1912)

C

CALCUTTA–HOWRAH Floating Bridge, Sir B. Leslie and Cleveland Bridge and Engineering Company's Designs, 272
Caledon Shipbuilding and Engineering Company, 310
Calgarian, Allan Liner, Rudder for, Fairfield Shipbuilding and Engineering Company, 658
Cammell, Laird and Co.'s 32,000-Ton Floating Dock for Portsmouth, 204, 231
Cammell, Laird and Co.'s Cross-Channel Passenger Steamer Greenore, 234; (Correction), 264
Carels–Tecklenborg Engines of the Diesel Motor Ship Rolandseck, 550
Carnon Mine, Cornwall, 190
Carpenter, Professor R. C., on Investigation of the Economy of a Simple Engine with Steam Less than that of Atmospheric Pressure, 23
Cedegolo Power Station, 351, 373
Central London Railway Extension, 129, 564; (Correction), 631
Chambers', Captain, Catapult for Launching Hydro-aeroplanes, 617, 628
Chinese Government Railways, Atlantic Type Engine and Tender, Kerr, Stuart and Co., 222, 223 (*Two-page Supplement, August 30th*, 1912)
Chorlton, Alan E. L., on a New Type and Method of Construction of Large Gas Engines, 395
Churchill–Shann Exhaust Gas Turbine, 206
Churchill's Universal Grinding Machine (xx, *Twenty-page Supplement, October 18th*, 1912)
Citroën, André, Rolling Mill Pinions and Bevel Gears, 459
Clerget Rotating Engine for Aeroplane, 516
Cleveland Bridge and Engineering Company's Design for Calcutta–Howrah Bridge, 272
Clifton and Baird's Bar Cutting-off Machine (xix, *Twenty-page Supplement, October 18th*, 1912)
Closed Circuit Air Transmission, Limited, Marine Gas Plant, 99
Colchester Lathe Company's Capstan Lathe, 429
Comte de Flandre Shallow Draught Steamer, Yarrow and Co., 684, 685
Constantinople, Pontoon Bridge at, 598, 605
Cooke, C. J. B., on Mechanical Handling of Coal for British Locomotives, 579
Cordova Central Railways, Narrow Gauge Locomotive, 680
Cornwall, Mines and Works in, 96, 113, 143, 150, 166, 190
Creedy, F., on a High-speed Electric Generator, 495, 500
Crigglestone Collieries Coke Ovens and By-product Plant, 440, 443
Cromford and High Peak Railway, 546, 552
Crosby Continuous Duplex Indicator, 382
Crossley Governor Gear, 20
Crossley Motor Car Chassis, Engine and Gear-box at Olympia, 490
Culebra Cut, Panama Canal, 561, 572, 588 (*Two-page Supplement, December 6th*, 1912)
Cunliffe and Croom's Electrically Driven Face Lathe, 208
Curtis Steam Turbine, R. F. Halliwell, 655

D

DAGUE and Cimeterre, French Destroyers, 171
Daimler Agricultural Tractor, 18
Daimler 3–4-Ton Petrol Lorry, 18
Dalby, Professor W. E., on Characteristic Dynamical Diagrams for the Motion of a Train, &c., 467, 469, 502, 529
Dalby, Professor W. E., on Valve Gear Diagrams and the Apparatus for Drawing them, 57, 81
Davey, Henry, Self-acting Weir and Floodgate, 22
Davey, Paxman's Gas Engine, 620
Davey, Paxman's Wood Refuse Suction Gas Producer, 250
Davies and Metcalfe's Vacuum Brake Ejector, 102
Davis' Paraffin Carburetter, 36, 37
Denny-Edgecombe Torsion Meter, 98
Deptford Electricity Generating Station, 140
Derwent Valley Scheme, Leicester Water Supply, 59, 248, 646, 650 (*Two-page Supplement, July 19th*, 1912)
Ditton Accident, London and North-Western Railway, 307
Dolcoath Mine, Cornwall, 113
Doncaster, Royal Agricultural Show at, 18, 36
Dorman, Long's New Generating Station at Middlesbrough, 218, 226
Douglas-Conroy Milk-cooling Apparatus, 582
Dreadful, Sea-going Tug Boat, J. Pollock and Co., 310
Drewry Car Company's Motor Inspection Car for High Altitudes, 91
Drummond, Dugald (Portrait), 523
Drummond's 3½in. Admiralty Lathe, 409
9in. Lathe, 409
Ring Turret Lathe, 409
Dunkirk Lake After Subsidence, 615
Dunlop Closed Circuit Marine Gas Plant, 99

E

EAST Indian Railways, Eight-coupled Goods Engine, 66, 74
Eastern Sun Power Company's Plant in Egypt, 393
Eavestone, Single-screw Motor Ship, 433 (*Two Two-page Supplements, October 25th*, 1912)
Egypt, Sun Power Pumping Installation, 393
Eisermann-Lehne Blower, 682
Erie Railroad "Mikado" Type Locomotives, 103
Escher, Wyss, 10,000 H.P. High-pressure Turbines at Biaschina Power Station, 482 (*Two-page Supplement, November 8th*, 1912)
Escher, Wyss, Pelton Wheel Turbines for Isola, 349 (*Two-page Supplement, October 4th*, 1912)
Esselbé Aeroplane Engine, 517

F

FAIRFIELD Shipbuilding and Engineering Co., Rudder for the Allan Liner Calgarian, 658
Fatava Aeroplane Engine, 517
Firedrake, H.M. Torpedo-boat Destroyer, Yarrow and Company, 129
Florian Angele Valve Gear, 681
Foucault Current Railway, 414, 420
Fowler's Internal Combustion Road Locomotive, 36
France, French Liner, 7, 14
French Destroyers Dague and Cimeterre, 181
French Liner France, 7, 14
Frerichs-Junkers' Tug-boat Engine, 405

G

GASSMAN, H. M., on Motor and Control Equipment of Electrically Operated Valves, 301, 504
Gathmann Torpedo Gun, 119
Gatun Locks, Panama, 561, 572, 588 (*Two-page Supplement, December 6th*, 1912)
German Battle-cruiser Goeben, 249, 250
German Motor Notes, 378, 402
Gheury, M. E. J., on The Exact Determination of the Constants of Empirical Formulæ, 267
Giew Mine, Cornwall, 166
Gladstone Dock, Liverpool, 581
Goeben, German Battle-cruiser, 249, 250
Graeme Stewart, Electrically Driven Fire Float, 312
Grand Trunk Railway Viaduct over the Little Salmon River, 327
Grant, K. C., on The Flood Problem of Pittsburgh, 55, 82, 111
Great Eastern Railway Jubilee, 68
Greenore, Cross-channel Passenger Steamer, Cammell, Laird and Co., Limited, 234; (Correction), 264
Greenwood and Batley's Cylindrical Grinding Machine (xii, *Twenty-page Supplement, October 18th*, 1912)

H

HADFIELD, Sir R., on Method of Producing Sound Ingots, 361, 445, 449, 636
Hadfield, Sir R., on New Method of Revealing Segregation in Steel Ingots, 361, 368
Hall, R., and Sons' Automatic Loom, 330
Halliwell, R. F., on The Curtis Steam Turbine, 655
Hardy Patent Pick Company's Rock Drill, 156
Hartung Spring Governor, 258
Heap, Joshua, and Company's Stay Screwing Machine (xix, *Twenty-page Supplement, October 18th*, 1912)
Hendrie Locomotives in South Africa, 4
Herbert, Alfred, Limited, Horizontal Milling Machine, Cutter, and Grinder, Automatic Screw Machine (viii, ix, x, and xi, *Twenty-page Supplement, October 18th*, 1912)
Herbert, Alfred, Photostat Copying Apparatus, 658
Herbert, E. G., Hack Saw and Filing Machine (vi, *Twenty-page Supplement, October 18th*, 1912)
Heyworth Scraper Bucket Excavator, 194
Hobart, H. M., and E. Knowlton on Induction Generators, 288
Holman Air-driven Rock Drill, 114
Holman Stretcher Bar Air-driven Hoist, 114
Hooker, Peter, Limited, Sand Blast Rolling Barrel, 180
Hoosac Tunnel Single-phase Railway Electrification, 323, 594
Howaldtswerke Company's Motor Ship Monte Penedo, 230
Howden Dam, Derwent Valley Waterworks, 59 (*Two-page Supplement, July 19th*, 1912)
Hughes, George, on Back Pressure in Locomotive Engines, 157
Hulse and Co.'s Workshops Extension, 130
Humpage Gear Hobber, Power Hack Saw, 432

I

ILKESTON Sewage Disposal Works, 354, 358
Indian State Railways Superheater Locomotives, Vulcan Foundry, Limited, 384, 386
Isler, C., and Co., Counterbalanced Deep-well Pump, 660
Isola—*see* Adamello
Italian Railways, The Progress of, 241
Italian State Railways, Express Goods Engine, 655 (*Two-page Supplement, December 20th*, 1912)
Italian Submersible Atropo, 49

J

JENKINS and Son, Hydraulic Valve, 21
Jones and Shipman's Milling and High-speed Drilling Machines and Hack Saw (x. xi. xii. *Twenty-page Supplement, October 18th*, 1912)
Joy Valve Gear Bench, 82
Judson-Jackson Company's Belt-driven Power Hammer, 431
Junkers' Single and Double-acting Oil Engines for a Hamburg-Amerika Liner, 404
Juno, Diesel Motor Ship, Nederlandsche Fabriek, 514, 538 (*Two-page Supplement, November 15th*, 1912), (*Two-page Supplement, November 22nd*, 1912)
Jupiter, Propelling Plant of the, 312

K

KELLY, W. R., on The New Graving Dock at Belfast, 182 (*Two-page Supplement, August 16th*, 1912)
Kendall and Gent's Screwing Machine (xx, *Twenty-page Supplement, October 18th*, 1912)
Kennicott Water Softener, 410
Kerr, Stuart and Co.'s Engine and Tender for the Chinese Government Railways, 222, 223 (*Two-page Supplement, August 30th*, 1912)
Kershaw, J. B. C., on Induction Furnaces for Steel Refining, 643, 668
King George V., H.M. Dreadnought, 554
Kitson Locomotive for Natal, 4
Koppel, A., Electric Tip Wagons, 525
Krupp's Vertical Paddle-boat Engines, 378

L

LAGO d'Arno, 294
Lamme, B. S., on A 2000-kilowatt Unipolar Generator, 75
Lana-Vigiljoch Aerial Cableway, 605
Langen and Wolf Diesel Engine, 84, 85, 94
Laurenti, Major, Dock for Testing Strength of Submarine Vessels, 332, 337
Laviator Rotating Engine for Aeroplane, 517
Lea, Henry (Portrait), 92
Leeds and Thirsk Railway, Tunnel Memorial, 645
Leicester Water Supply from the Derwent Valley, 59, 248, 646, 650 (*Two-page Supplement, July 19th*, 1912)
Leslie, Sir Bradford, Design for Calcutta Howrah Floating Bridge, 272
Liddell, A. R., on Deckloads of Timber, 86
Lidgerwood Scraper Bucket Excavator, 194
Little Salmon River Viaduct, Grand Trunk Railway of Canada, 327
Liverpool, Gladstone Dock at, 581
Liverpool, Royal Liver Buildings, Boiler-house Plant, 63
Liverpool University, Worm Gearing at, H. Wallwork and Co., 233
Lötschberg Single-phase Railway Motor Coach, 672
London and South-Western Suburban Lines, 629
Loudon Brothers' Marine Repair Shop Lathe, 158, 159
Low Coal Engine, 526; (Letter), 544
Lumsden Oscillating Tool Grinder (ix. x. xi. *Twenty-page Supplement, October 18th*, 1912)

M

McLAREN, J. and H., Land Levelling Scoop 555
McNaught, Duncan (Portrait), 364
Mahoning Creek—*see* Pittsburgh
Mallet Engines in South Africa, 5
Mann's Light Steam Agricultural Tractor, 621
Marion Ditch Excavating Machine, 363

252594

Martin, Percy F., on The Panama Canal, 561, 572, 588 (*Two-page Supplement, December 6th*, 1912)
Massey, B. and S., Friction Drop Stamps, 340
Mather and Platt's Park Works, Manchester, 466, 470
Maudslay Four-cylinder Motor Car engine, 543
Mavor, H. A., on Marine Propulsion by Electric Transmission, 312
Mechan and Sons' Sewage Distributor, 64
Middlesbrough, Britannia Works Generating Station, 218, 226
"Mikado" Locomotives for the Erie Railroad, 103
Millington, W. E. W., on High-lift Centrifugal Pumps, 464
Mitchell's Emery Wheel Company's Dust-collecting Device for Grinding Machines, 287
Monte Penedo, Motor Ship, and Engines, Howaldtswerke Company, 230, 244
Moody, W. S., on Reactance in Transformers, 686
Murnau-Oberammergau Single-phase Railway, 618, 624

N

NEAT'S Die-casting Machine, 429
Neat's Nut-tapping Machine, 429, 430
Neat's Saw Sharpener, 429, 430
Nederlandsche Fabriek Diesel Motor Ship Juno, 514, 538 (*Two-page Supplement, November 15th*, 1912)
Negretti and Zambra's Mercurial Vacuum Gauge, 131
Nesbitt's Petrol Valve and Filter, 683
New South Wales Railways' Locomotives, Beyer, Peacock and Co., 498
New York, New Haven and Hartford Single-phase Railway and Shunting Locomotive, 256, 275, 594
New York, Westchester and Boston Single-phase Railway, 595
Newcomen Pumping Engines of 1712, 486; (Letter), 544
North-Western Railway of India, Superheater Locomotives, Vulcan Foundry, Limited, 384, 386
Northwich, Salt Subsidences at, 614
Norwich-Brandon Railway Block Telegraph Instrument, 69

O

OLYMPIA, Engineering and Machinery Exhibition at, 380, 409, 429, 458 (*Twenty-page Supplement, November 18th*, 1912)
Olympia, Motor Car Show at, 489, 510
Ormerod Brothers' Shaping Machines (vii and viii, *Twenty-page Supplement, October 18th*, 1912)
Oudh and Rohilcund Railway, Superheater Locomotive, Vulcan Foundry, Limited, 384

P

PANAMA Canal, Percy F. Martin, 561, 572, 588 (*Two-page Supplement, December 6th*, 1912)
Panhard Aeroplane Engine, 517
Paris, Aviation Motors in, 497, 516
Park Works, Manchester, Mather and Platt, Limited, 466, 470
Parkinson's Thread Milling Machine, Sunderland Gear-planing Machine and Testing Jigs (xvi, xvii and xviii, *Twenty-page Supplement, October 18th*, 1912)
Parma, Single-phase Tramways in, 640
Peck, J. S., on Earthed *versus* Unearthed Neutrals on Alternating-current Systems, 607
Pedro Miguel Locks, 561
Pendred, Vaughan (Portrait), 418
Perkin and Co.'s Lathe for Bar Work, 384
Petter's Oil Traction Engine 37
Petter's Semi-Diesel Engine, 620
Pfeil and Co., Shaping Machine, Tooth-chamfering Machine, 430
Pickles, J., and Son's Horizontal Band Saw, 330
Pittsburgh, Flood Problem of, K. C. Grant, 55, 82, 111
Platt's Heading and Forging Machine, 431
Platt's Nut-milling Machine, 431
Platt's Three-way Screwing Machine, 431
Pollard's Sensitive Drilling Machine (xix and xx, *Twenty-page Supplement, October 18th*, 1912)
Pollock's Sea-going Tug Boat Dreadful, 310
Portsmouth, 32,000-Ton Floating Dock, Cammell Laird and Co., Limited, 204, 231
Power Plant Company's Heavy-duty Coupling; Treble Helical Gear; Speed-increasing Gear, 382, 383

Q

QUEBEC Bridge, The New, 666, 676
Queensland Government Railways, Goods Wagon with Guard's Compartment, 499

R

REAVELL Air Compressors for the Rolandseck Motor Ship, 632 (*Two-page Supplement, December 13th*, 1912)
Redman's Planer with Electric Drive, 458
Reid Locomotive, Natal, 5
Reiherstieg-Carels 2500 I.H.P. Oil Marine Engine, 378
Reinecker Tooth-chamfering Machine, Pfeil and Co., 430
Renold Friction Clutch, 459
Renold Roller Chain-driven Cam Shaft, 512
Rhenania Gear Hobber, C. W. Burton, Griffiths and Co., 460
Richards' Duplex Boring Machine and Side Planing Machine (iv and v, *Twenty-page Supplement, October 18th*, 1912)
Richardsons, Westgarth's Rolling Mill Engines, 252, 260; (Correction), 290
Robey's Horizontal Stumpf Engine, 19
Robey's Semi-Diesel Engine, 19
Rock Island and Southern Railway Single-phase Railway, Locomotive, &c., 482
Rolandseck, Diesel Motor Ship, J. C. Tecklenborg A.G., 550, 616, 632 (*Two-page Supplement, December 13th*, 1912)
Rotterdam, The Hague, Scheveningen Single-phase Railway, 70
Royal Agricultural Show at Doncaster, 18, 36
Royal Aircraft Factory Biplane BE2, and Aeronautical Committee, 513, 536, 562, 590
Royal Liver Buildings, Liverpool, Boiler-house Plant, 63
Royle's Pump for Hot Liquids with Twells' Valves, 283
Ruston, Proctor's Oil Engine, 620; and Steam Tractor, 621

S

ST. CLAIR Tunnel Railroad Single-phase Locomotive, 417
St. Nazaire, Shipbuilding and Engineering Works at, 7, 14
St. Pölten-Mariazell Single-phase Railway, 196, 200
Salmson Rotating Engine for Aeroplane, 517
Sandycroft, Limited, 100 H.P. Electrically Driven Hauling Gear, 630
Schaerer All-gear Lathe, 430, 431
Scott-Crossley Motor Self-starting Gear, 511
Scriven's Angle Bar Straightening Machine, 656
Selson High-speed Lathe, Shaping Machines, and Radial Drills, 383 (xiii, xiv and xv, *Twenty-page Supplement, October 18th*, 1912)
Shark, H.M. Torpedo-boat Destroyer, 501; (Correction), 528
Sheffield-Simplex Six-cylinder Motor Car Engine, Chassis, and Details, 511 (*Two-page Supplement, November 15th*, 1912)
Sicilian Fruit Trade, Locomotives for, 655 (*Two-page Supplement, December 20th*, 1912)
Siemens Brothers' Works Extension, Woolwich, 328; (Letters), 397, 450
Siemens-Schuckert Electrical Equipment for Single-phase Railways, 10, 70
Siemens-Schuckert 20,000-volt Locomotive and Train, 10
Simms Lighting Dynamo and Magneto, 511; (Correction), 540
Simplex Imperial Rock Drill, R. Stephens and Son, 192
Smith and Coventry's Bateman Planing Machine, 380, 381 (xv, *Twenty-page Supplement, October 18th*, 1912)
Smithfield Club Show, 619
South African Railways Narrow-gauge Locomotives, 680
South African Railways, Rolling Stock Development on, 3, 44, 48; (Letter), 47
South Crofty Tin Mine, Cornwall, 190
Southey, F., on A Modern Factory, 328; (Letters), 397, 450
Southey Oil Gas Producer, 460, 461
Spanish Railway Narrow-gauge Locomotive, 680
Spiez-Frutigen Single-phase Railway, 672
Spokane and Inland Empire Single-phase Railway, Locomotives, &c., 482
Star Engineering Company's "Ever-ready" Self-starter, 511
Star Engineering Company's Motor Car at Olympia, 541, 542
Stead, J. E., on When Steel Freezes, 518
Stephens and Son's Rock Drill Works, 191
Stephenson Link Motion Bench, 81
Stirk, John, and Sons' 18in. Lathe, 380
Stockport New Waterworks, 29, 40
Stothert and Pitt's Self-propelled Steam Breakdown Crane, 632
Sugden's Two Types of Superheaters, 683
Sulzer's Diesel Engines for the Monte Penedo, 230, 244
Swan, Hunter and Wigham Richardson 32,000-Ton Floating Dock for the Medway, 72, 73
Swan, Hunter and Wigham Richardson, H.M. Torpedo-boat Destroyer Shark, 501
Swiss Federal Railways Balanced Compound Express Engine, 233
Sydney, Transit Facilities in, 659

T

TALBOT Motor Car Chassis and Engine at Olympia, 542
Tansa Dam, for Bombay Water Supply, 87
Taylor's Cutting-off Machine, 458
Thamshavn-Lokken Single-phase Railway, 88
Trenwith Mine, Cornwall, 166
Trevithick Engine and Mixed Train, 546, 552
Twells' Valve for Pump, 283

U

UNITED States, Rail Situation in, 391

V

VACUUM Oil Company's Lubricators, 431, 432
Venturi Apparatus for Lime Water, 33
Vernon, P. V., on Milling Machine Experiments, 574, 577
Vickers' Motor Control Pillars, 461
"Victor" Automatic Machine for Chuck Work, C. W. Burton, Griffiths and Co. (i, ii and iii, *Twenty-page Supplement, October 18th*, 1912)
Virginian Railway 335-Ton Mallet Locomotive and Tender, American Locomotive Company, 282 (*Two-page Supplement, September 13th*, 1912)
Vulcan Foundry, Limited, Superheater Locomotives for Indian State Railways, 384, 386

W

WALLWORK'S Gear Hobber (ix and x, *Twenty-page Supplement, October 18th*, 1912)
Wallwork's Worm Gearing at Liverpool University, 233
Walschaert's Valve Gear Bench, 82
Ward's Plain Chucking Lathe and Horizontal Milling Machine, 411
Webster and Bennett's Duplex Boring and Turning Mills (xviii and xix, *Twenty-page Supplement, October 18th*, 1912)
Weir, G. and J., Locomotive Feed-water Heater, 654
Werf Gusto, Sea-going Suction Hopper Dredger, 287
Weser Aktien-Gesellschaft of Bremen, Toussant Tug-boat Marine Oil Engine, 402
Wheal Jane Mine, Cornwall, 190
Wicksteed, C., on Reciprocating Straight Blade Sawing Machines, 139
Willcox-Penberthy Automatic Cellar-Drainer, 205
Wilson and Mathieson's Moulding Machine, 498
Wimperis, H. E., on The Acceleration of a Motor Car, 338
Wimperis, H.E., on The Design of Motor Vehicles, 509
Wolseley Motor Car Chassis, Engines and Carburetter at Olympia, 489
Woolwich Footway Tunnel, 462
Woolwich Works Extension, Siemens Brothers, 328; (Letters), 397, 450

Y

YARROW'S Shallow-draught Steamer Comte de Flandre, 684, 685
Yarrow's Torpedo-boat Destroyer Firedrake, 129

Subjects.

A

ACCELERATION of a Motor Car, H. E. Wimperis, 338
Aerial Cableway, Lana-Vigiljoch, 605
Aerofoils for Lift and Drift Experiments, 590
Aeronautical Committee, Government, Work of, 513, 536, 562, 590
Aeroplane BE2, Royal Aircraft Factory, 513, 536
Aeroplane Catapult for Launching Hydro-Aeroplanes, Captain Chambers, 617, 628
Aeroplanes in Paris, 497, 516
Agricultural Tractor, Daimler, 18
Angle Bar Straightening Machine, Scriven and Co., 656
Automatic Box Board Machine, J. B. Bolinders and Co., 308
Automatic Loom, R. Hall and Sons, 330
Automatic Machines—*see* also Machine Tools

MACHINE TOOLS:

(For Machine Tools at Engineering and Machinery Exhibition *see* below)
Drilling Machine, Universal Radial, J. Buckton and Co., 174, 176
Grinding Machine with Dust Collector, Mitchell's Emery Wheel Company, 287
Hob and Gear, P. Ballard, 221
Lathe, Electrically Driven Face, Cunliffe and Croom, Limited, 208
Lathe, Marine Repair Shop, Loudon Brothers, 158, 159
Milling Machine, Crank Shaft, Burmeister and Wain, 366
Sawing Machines, Reciprocating Straight Blade, C. Wicksteed, 139
MACHINE TOOLS AT OLYMPIA EXHIBITION:
Automatic Machine for Chuck Work, "Victor," C. W. Burton, Griffiths and Co., (i, ii, and iii, *Twenty-page Supplement, October 18th*, 1912)
Automatic Screw Machine, A. Herbert, Limited (ix and xi, *Twenty-page Supplement, October 18th*, 1912)
Bar Cutting-off Machine, Clifton and Baird (xix, *Twenty-page Supplement, October 18th*, 1912)
Bevel Gears, André Citroën, 459
Boring Machine, Duplex, Geo. Richards and Co. (iv and v, *Twenty-page Supplement October 18th*, 1912)
Boring and Turning Machine, Duplex, J. Butler and Co. (vii, *Twenty-page Supplement, October 18th*, 1912)
Boring and Turning Mills, Duplex, Webster and Bennett (xviii and xix, *Twenty-page Supplement, October 18th*, 1912)
Chain-driven Side Planing Machine, Geo. Richards and Co. (v, *Twenty-page Supplement, October 18th*, 1912)
Cutter and Tool Grinder, Universal, A. Herbert, Limited (ix and x, *Twenty-page Supplement, October 18th*, 1912)
Cutting-off Machine, Charles Taylor, Limited, 458
Die Casting Machine, C. Neat and Co., 429
Drillers, Radial, Selson Engineering Company, Limited, 383 (xv, *Twenty-page Supplement, October 18th*, 1912)
Drilling Machine, High-speed, Jones and Shipman, Limited (xi, *Twenty-page Supplement, October 18th*, 1912)
Drilling Machine, Sensitive, F. Pollard and Co., Limited (xix, xx, *Twenty-page Supplement, October 18th*, 1912)
Drilling Machine, Sensitive Radial, J. Archdale and Co., 412
Drilling Machine, Universal Radial, C. W Burton, Griffiths and Co., 460
Drilling Machines, Double-spindle and Girder Radial, and Vertical, W. Asquith, Limited (vi and xiii, *Twenty-page Supplement, October 18th*, 1912)
Filing Machine, E. G. Herbert (vi, *Twenty-page Supplement, October 18th*, 1912)
Gear Hobber, Humpage, Thomson, and Hardy, 432
Gear Hobber, Rhenania, C. W. Burton, Griffiths and Co., 460
Gear Hobbing Machine, H. Wallwork and Co. (ix and x, *Twenty-page Supplement, October 18th*, 1912)
Grinding Machine, Cylindrical, Greenwood and Batley, Limited xii, *Twenty-page Supplement, October 18th*, 1912)
Grinding Machine, Oscillating Tool, Lumsden Machine Company, Limited (ix, x, xi, *Twenty-page Supplement, October 18th*, 1912)
Machine Tools *(continued)*:
Grinding Machine, Universal, C. Churchill and Co. (xx, *Twenty-page Supplement, October 18th*, 1912)
Hack Saw, H. G. Herbert (vi, *Twenty-page Supplement, October 18th*, 1912)
Hack Saw, Jones and Shipman, Limited (xi and xii, *Twenty-page Supplement, October 18th*, 1912)
Hack Saw, Power-driven, Humpage, Thomson and Hardy, 432
Hammer, 60 lb. Belt-driven Power, Judson-Jackson Company, 431
Heading and Forging Machine, Samuel Platt, 431
Jigs, Bevel Gear Testing, J. Parkinson and Son (xviii, *Twenty-page Supplement, October 18th*, 1912)
Lathe, All-gear, Schaerer and Co., 430, 431
for Bar Work, Perkin and Co., 384
Capstan, J. Archdale and Co., 412
Capstan, Colchester Lathe Company, 429
High-speed, Selson Engineering Company, Limited (xiii and xiv, *Twenty-page Supplement, October 18th*, 1912)
Plain Chucking, H. W. Ward and Co., Limited, 411
18in., John Stirk and Sons, 380
Lathes, Admiralty, Colonial, and Ring Turret, Drummond Brothers, 409
Milling Machine, J. Archdale and Co. (xviii, *Twenty-page Supplement, October 18th*, 1912)
Machine Experiments, P. V. Vernon, 574, 577
Machine, Horizontal, A. Herbert, Limited (viii and x, *Twenty-page Supplement, October 18th*, 1912)
Machine, Horizontal, H. W. Ward and Co., 411
Machine, Jones and Shipman, Limited (x, xi and xii, *Twenty-page Supplement, October 18th*, 11912)
Machine, J. Parkinson and Son (xvi and xvii, *Twenty-page Supplement, October 18th*, 1912)
Nut Milling Machine, Samuel Platt, 431
Nut Tapping Machine, C. Neat and Co., 429 430
Planer with Electric Drive, C. Redman and Sons, 458
Planing Machine, Bateman, Smith and Coventry, 380, 381 (xv, *Twenty-page Supplement, October 18th*, 1912)
Planing Machine, Sunderland Gear, J. Parkinson and Son (xvi and xvii, *Twenty-page Supplement, October 18th*, 1912)
Saw Sharpener, C. Neat and Co., 429, 430
Screwing Machine, Joshua Heap and Co. (xix, *Twenty-page Supplement, October 18th*, 1912)
Screwing Machine, Kendall and Gent (xx, *Twenty-page Supplement, October 18th*, 1912)
Screwing Machine, Three-way, Samuel Platt, 431
Shaping Machine, Pfeil and Co., 430
Shaping Machines, Ormerod Brothers (vii and viii, *Twenty-page Supplement, October 18th*, 1912)
Shaping Machines, Selson Engineering Company, Limited (xiii, xiv and xv, *Twenty-page Supplement, October 18th*, 1912)
Slotting Machine, with Vickers 20 H.P. Motor Drive, J. Buckton and Co., Limited, 602
Straightening Machine, Angle Bar, 656
Tooth Chamfering Machine, Reinecker, 430

ASSOCIATIONS, INSTITUTIONS, AND SOCIETIES.

Association, The British:
Alternating Load Tests, B. P. Haigh, 298
Antarctic Discovery, 326
Behaviour of Ductile Material during Torsional Straining, C. E. Larard, 299
Belmullet Whaling Station, 326
British Association: Its Present, Past and Future, by a Lay Member, 165
Buried River Channels, Rev. A. Irving and N. A. Cadell, 325
Caloric Theory of Heat, Professor Callendar, 284
Coal and Oil, Comparative Statistics of World's Output and Requirements for Marine Purposes, Dugald Clerk on, 298
Country North of Lake Albert, 326
Curricula and Educational Organisation of Industrial and Poor Law Schools, 326

Association, The British (*continued*):
Dew-ponds and Mist-ponds, E. A. Martin, 326
Diffusion in Solids, Dr. Desch, 325
Economic Aspect of Scottish Water Power, A. Newlands, 326
Engineering and the Amenities, Presidential Address, Professor A. Barr, 261
Experimental Determination of the Stresses in Springs and other Bodies by Optical and Electrical Methods, Professor E. G. Coker, 298
Experiments on the Weathering of Portland Stone, Dr. J. S. Owens, 299
Exposure Tests of Light Aluminium Alloys, Professor Ernest Wilson, 298
Falmouth Observatory, 325
Federal Government, Right Hon. H. Samuel, 326
Féry Bomb Calorimeter, R. S. Whipple, 298
Fluctuations of Signals and Strays in Wireless Telegraphy, Dr. W. H. Eccles, 325
Gas Turbine, Dugald Clerk on, 297
Gaseous Explosions Committee's Report, Dugald Clerk, 270
Handwriting, Movements in, R. R. Rusk, 326
Hysteresis Loss in Iron due to a Combined Pulsating and Rotating Magnetic Field, T. F. Wall, 298
Ignition of Gaseous Mixtures by Momentary Electric Arcs, Professor W. M. Thornton, 271
Impedance of Telephone Receivers as Affected by the Motion of their Diaphragms, Professor A. E. Kennelly and Mr. C. W. Pierce, 272
International Map of the World, 326
Investigations of the Upper Atmosphere, 325
Lord Kelvin Memorial, 298
Marine Propulsion by Electric Transmission, H. A. Mavor, 312
Meeting at Dundee, 165, 261, 269, 284, 312, 313, 325
Menai Strait, E. Greenly, 325
Mental and Physical Factors Involved in Education, 326
Nation's Food Supply, 326

Association, The British (*continued*):
Origin of Kopjes and Inselberge, Dr. J. D. Falconer, 325
Overlapping between Secondary Education and that of Universities, &c., 326
Physiology, Dr. L. Hill, 326
Practical Standards for Electrical Measurements, 325
Problems in Wireless Telegraphy, Dr. J. A. Fleming, 271
Production of Electric Oscillations by Spark Gaps Immersed in Running Liquids, Dr. W. H. Eccles and A. J. Makower, 272
Relation of Mind to Body, 326
Rescue Apparatus for Coal Mines, F. Reid, 299
Seismological Investigation Report, 325
Settlement and Transport of Sand in Water, Dr. J. S. Owens, 325
Sight Tests, Report of the Departmental Committee 326
Suction between Vessels, Professor A. H. Gibson and J. H. Thompson, 298, 313
Tabulation of Bessel and other Functions, 325
The Road Problem, Sir J. Macdonald, 327
Visit to Dundee Electricity Supply, 299

Association, The British Engineers':
Inaugural Dinner, 604

Association of Engineers, Manchester:
Air Compressors, G. Barr, 514
Curtis Steam Turbine, R. F. Halliwell, 655
Diesel Engine Development, Presidential Address, C. Day, 570
High Lift Centrifugal Pumps, W. E. W. Millington, 464
Visit to British Thomson-Houston Company Works at Rugby, 47

Institute, Iron and Steel:
Allotropy, Professor Carl Benedicks, 407, 423
Autumn Meeting, 210, 361, 389, 406, 443
Bessemer Medal Awarded to J. H. Darby, 361
Crigglestone Collieries, 440, 443
Leeds University Honorary Degrees, 407

Institute, Iron and Steel (*continued*):
Manufacture of Open-hearth Steel, with Reference to Improvement in Yield, F. W. Paul, 389
Method for Improvement of the Soundness of Steel Ingots by the Aid of Thermit, Dr. Hans Goldschmidt, 361
Method of Producing Sound Ingots, Sir R. Hadfield, 361, 445, 449
Method of Revealing Segregation in Steel Ingots, Sir R. Hadfield, 361, 368
New Type and Method of Construction of Large Gas Engines, Alan E. L. Chorlton, 394, 406
Nitrogen and Iron, J. H. Andrews, 407, 424
Rolling Mill Practice in the United States, Dr. J. Puppe, 390
Some Aspects of Wire Drawing, Percy Longmuir, 407
Steel Work Yield, P. Longmuir and W. H. Robinson, 389
Thermal-magnetic Transformations of 25 per cent. Nickel Steel, E. Colver-Glauert and S. Hilpert, 407, 424
Visits, 440, 443

Institute of Metals:
Annealing of Coinage Alloys, T. K. Rose, 353
Autogenous Welding, F. Carnevali, 377
Autumn Meeting, 262, 353, 376
Effect of other Metals on the Structure of the β Constituent in Copper-zinc Alloys, Professor H. C. H. Carpenter, 353
Effect of Temperatures Higher than Atmosphere on Tensile Tests of Copper and its Alloys, &c., Professor A. K. Huntington, 354
Influence of Impurities on "Tough Pitch" Copper, F. Johnson, 376
Influence of Oxygen on the Properties of Metals and Alloys, E. F. Law, 377
Inter-crystalline Cohesion in Metals, Dr. W. Rosenhain and Mr. D. Ewen, 354
Joining of Metals, A. E. Tucker, 377
Nomenclature Committee, Representative Members, 604
Oxygen in Brass, Professor T. Turner, 377
Progress of Corrosion Research, Dr. G. D. Bengough's Report, 604
Structural Resolution of the Pure Copper-zinc β Constituents into $\alpha + \gamma$, Professor H. C. H. Carpenter, 353

Institution of Civil Engineers:
Construction of the New Dock at Methil, B. Hall Blyth, 556
Generation and Distribution of Producer Gas in South Staffordshire, H. A. Humphrey, 633
October Examinations, 1912, Pass List, 556
Opening of Session, Presidential Address, R. Elliott-Cooper, 487
Port Talbot Docks and Railways during the Last Decade, W. Cleaver, 556
Vibration of Rifle Barrels, F. Carnegie, 607

Institution of Electrical Engineers:
Earthed *versus* Unearthed Neutrals, J. S. Peck, 607
Presidential Address, W. Duddell, 544
Research Work Committee's Report, 645

MANCHESTER LOCAL SECTION:
High-speed Electric Generators, F. Creedy, 495, 500

Institution of Mechanical Engineers:
Belfast Meeting, 1912, 50, 116, 126, 138
Characteristic Dynamical Diagrams for the Motion of a Train during the Accelerating and Retarding Periods, Professor W. E. Dalby, 467, 469, 502, 529
Commercial Utilisation of Peat for Power Purposes, H. V. Pegg, 132, 140
Contribution to the Theory of Refrigerating Machines, Dr. Grindley, 576, 669
Evolution of the Flax Spinning Spindle, J. Horner, 126
Reciprocating Straight Blade Sawing Machines, C. Wicksteed, 139
Rolling Stock in Use on the Principa Irish Narrow-gauge Railways, R. M. Livesey, 126, 131
The New Graving Dock, Belfast, Mechanical Plant and General Appliances, W. R. Kelly, 126, 182 (*Two-page Supplement, August 16th*, 1912)
Theory and Experiment in the Flow of Steam through Nozzles, Professor J. B. Henderson, 469
Vapour Compression Refrigerating Machines, Professor Anderson, 576, 581, 669
Visits to Belfast Works, 116, 147
Wire Ropes for Lifting Appliances and some conditions that Affect their Durability, D. Adamson, 138, 159

Institution of Naval Architects, German
Autumn Meeting, 568, 592
Early Development of the Diesel Engine, Dr. Diesel, 568
Internal Stresses, especially Tensile, &c., Professor E. Heyn, 569
Motive Media of the Diesel Motor, with Special Regard to Ocean Navigation, Dr. Aufhaüser, 568
Problem of Surface Resistance, Professor Dr. Gümbel, 569
Reorganisation of Harbour Dues and Measurement for Tonnage, Oberlehrer H. Herner, 593
Stresses in the Longitudinal Structure of Steel Merchant Vessels, Professor Otto Lienau, 592
Unsinkability of Modern Ships, Professor O. Flamm, 592

Institution, Royal, of Great Britain:
Programme of Lectures, 634

Institution of Water Engineers:
Self-pollution of Water by Natural Growths, J. H. Garrett, 49

Society of Engineers:
Test Deflections in Reinforced Concrete, P. J. Waldram, 608

Society, Royal Meteorological.
Unprecedented Rainfall in East Anglia on August 26th last, Dr. H. R. Mill, 582

ASSUAN Dam, 671
Aufhäuser, Dr., on The Motive Media of the Diesel Motor, 568

DOCKYARD NOTES:
Adventurer Class Scouts, New Armament, 174
Argentina to Build Third Dreadnought, 464, 630
Armament of Various Navies, Reversion to the 6in. Gun, 130
Austrian 1000-Ton Turbine-driven Mine Layer, 570
Austrian Viribus Unitis, Speed and Draught, 464, 630
Battleships, Four New, Named Barham, Queen Elizabeth, Valiant, and Warspite, 630
Brazilian Battleship Armament, 12
Brazilian Battleships' Extensive Overhaul, 260
Brazilian Monitors Javary, Madeira, and Solimoes, under Construction in the United Kingdom, 260
British Coast Fortification Armament, 570
Changed Nationalities of Various Warships, 464
Chilian Battleship Orders for Elswick and Clydebank, 260
Coaling Records in Germany, 12
Coaling Speed of the Second Squadron, 630
Destroyers' Depôt Ship at Alexandria, 464
Dreadnought Launches, British and Foreign, 260
Dutch Torpedo Boats and Motor Gunboats, Names, 629
Encounter, H.M. Protected Cruiser, Lent to Australia as Training Ship, 464
French Ships and Four-gun Turrets, 130
German Battle-cruiser Ersatz Kaiserin Augusta, 12
German Battleships Delayed by Strikes, 570
German Battleships Helgoland, Ostfriesland, and Thuringen, Speeds and Powers, 260
German Battleships Kaiser, Kaiserin, and Friedrich der Grosse, 260
German Cruisers Struck off Effective List, 630
German Naval Dirigible Carrying 14 Men, 464
German Navy to Adopt Long Range Firing for Battle Practice, 464
German Protected Cruiser Magdeburg, Speed Trials, 464
German Speed Trials of the Breslau, Goeben, Kaiser, and Oldenburg, 570
Greek Armoured Cruiser to be Built in Germany, 174
Italian Dreadnought Dante Alighieri, 629
Italian Dreadnoughts Diulio and Andrea Doria, 130, 629
Italian Programme Delayed, 629
Japan Abandons Attempt to Salve Admiral Togo's Ship, 464
Japanese Battleship Kongo 14in. Gun, 12
Japanese Cruiser Nisshin, Explosion, 630
Japanese Destroyers Umikase and Yamakase, Trial Results, 260
Japanese Naval Orders in England and France, 630
Japanese Ships, Increased Use of Home Material in Building, 174
Norwegian Naval Additions, Foreign Contracts, 174
Oil Carrier, 8000 Tons, Driven by Internal Combustion Engines, 464
Oil Carriers, Size and Building Orders, 174
Oil Fuel Commission, 130
Peru Purchases French Destroyer Actée and Renames Her Teniente Rodriguez, 629
Peru's Purchase of Old French Cruiser, 12, 629
Revel, New Private Shipyard at, 629
Russian Armoured Cruisers and Armament, 260
Russian Battleships Alexander III., Catherine II., and Empress Maria and Armament, 260
Russian Destroyer Norik, Dimensions and Trial Results, 260
Russian Naval Improvements, 174
Russian Naval Programme, 629
Torpedo-boat Destroyers Scrapped, 12
United States Armour Plate Trials, 630
United States Battleship Texas, Armament and Engines, 12, 629
United States Contract Awards for Projectiles, 630
United States 14in. Gun Official Trials, 570
United States Navy and Skeleton Masts, 12
United States 1040-Ton Torpedo-boat Destroyers, Names and Armament, 12, 629
United States Vessels under Construction, Progress, Percentages of Completion, 629
United States Warship Wyoming, 130, 629
Venezuela Purchases Maresa Sucre Gunboat from the United States, 464
Yachts for Commanders-in-Chief, Suppression on the Score of Expense, 12

DRAWBRIDGES, Vertical Lift, 518
Dredger, Sea-going Suction Hopper, Werf Gusto, 287
Drills, Agricultural, at Doncaster Show, 18
Drills—*see also* Rock Drills and Machine Tools
Driving of Textile Mills, 309

ELECTRICAL MATTERS

Accidents in Power-houses, 306
Adamello Hydro-electric Plant, 293, 319, 349, 373, 401 (*Two-page Supplement, October 4th*, 1912)
Biaschina Power Station, 10,000 H.P. High-pressure Turbines, 482 (*Two-page Supplement, November 8th*, 1912)
Britannia Works, Middlesbrough, Generating Station, 218, 226
Cedegolo Power Station, 351, 373, 401
Commercial Utilisation of Peat for Power Purposes, H. V. Pegg, 132
Compulsory Purchase of Electric Lighting Undertakings, 677
Control Pillars, Vickers' Patent Reversing Type, 461
Deptford Generating Station, 140
Dundee Electricity Supply, 299
Earthed *versus* Unearthed Neutrals, J. S. Peck, 607
Electric Lighting Provisional Orders, 68
Electric Mining Locomotives, A. H. Marshall, 35
Electricity from Peat and Lignite, 20
Electricity in the Stone Industries, 360
"Fabriol" Pinions, Silent, British Thomson-Houston Company, 462
Finance of Electrical Manufacturing, 442
Generation of Electrical Energy, 415
Generator, Unipolar, 2000-Kilowatt, B. S. Lamme, 75
Governor Gears for Generating Sets, Two Varieties, J. J. Armfield and Co., 432
Hauling Gear, 100 H.P. Electrically Driven, Sandycroft Limited, 630
High-pressure Electrical Furnace, J. H. Andrews, 424
High-speed Electric Generator, F. Creedy, 495, 500
Induction Furnaces for Steel Refining, J. B. C. Kershaw, 643, 668
Induction Generators, H. M. Hobart and E. Knowlton, 288
Lighting Dynamo and Magneto for Motor Cars, Simms Magneto Company, 510; (Correction), 540
Magnifying Feeble Signalling Currents, S. G. Brown, 674
Marine Propulsion by Electric Transmission, H. A. Mavor, 312
Motor and Control Equipment of Electrically Operated Valves, H. M. Gassman, 301, 504
Practical Standards for Electrical Measurements, 325
Production of Electric Oscillations by Spark Gaps Immersed in Running Liquids, Dr. W. H. Eccles and A. J. Makower, 272
Pyrometers, Thermo-couples, and other Appliances at Olympia, Robert Paul, 462
Railways and Railway Plant—*see* Railways
Reactance in Transformers, W. S. Moody, 686
Roncaldier Terminals, 402
Smoke Precipitation by Electricity, 340
Spanish Hydro-electric Power Undertaking, 384
Tabulation of Bessel and other Functions, 325
Thawing by Electricity, 234
Transmission, Electrical, for Diesel-engined Ship, 233
Water Turbine Generating Set, J. J. Armfield and Co., 432

EMBANKMENT for Stockport Water Supply, 29
Embrey, G., on the Use of Copper Sulphate in Purifying Water Supplies, 50
Empirical Formulæ, The Exact Determination of the Constants of, M. E. J. Gheury, 267; (Letters), 528

ENGINES AND MOTORS:

Internal Combustion Engines:

Aviation Motors in Paris, Burlat, Clerget, Esselbé, Fatava, Laviator, Panhard, Samson, 497, 516; (Letter), 544
"Closed Circuit" Air Transmission for a Gas-engined Vessel, 99
Coke Fuel Gas Engine, Anderston Foundry Company, Limited, 286
Commission on Oil Engines for the Navy, 95
Crude Oil Engine, 20 H.P. Complete Combustion, Ruston, Proctor and Co., 620
Diesel Engine Development, C. Day, 570
Diesel Engine, 800 H.P., of the Single-screw Motor Ship Eavestone, 433 (*Two-page Supplement, October 25th*, 1912)
Diesel Engines for the Monte Penedo, Sulzer Bros., 230, 244
Diesel Engines of the Motor Ship Rolandseck, Carels-Tecklenborg, 550, 632 (*Two-page Supplement, December 13th*, 1912)
Early Development of the Diesel Engine, Dr. Diesel, 568
Frerichs–Junkers' 150 H.P. Engine for a Tug-boat, 405
Gas Engine, Davey, Paxman and Co., 620
Gas Engine with Stauffer Lubricator and Suction Gas Plant, Davey, Paxman and Co., 20
Gas Engines, Large, New Type and Method of Construction, Alan E. L. Chorlton, 394, 406; (Letter), 422
Gas, Oil, and Petrol Engines at Doncaster, 20
German Motor Notes, 378, 387, 402
Governor Gear for Semi-Diesel Horizontal Engine, Crossley Brothers, 20
Junkers Marine Oil Engines for a Hamburg-American Liner, 404
Langen and Wolf Diesel Engine, 84, 85, 94

Internal Combustion Engines (*continued*):

Low Coal Engine, 100 H.P., 526; (Letter), 544
Motive Media of the Diesel Motor, with Special Regard to Ocean Navigation, Dr. Aufhäuser, 568
Motor Car Engines at Olympia, 489, 510, 541
Oil Engines at Doncaster, E. R. and F. Turner, 37
Oil Engines at Smithfield, Portable and Stationary, E. R. and F. Turner, 620
Oil and Gas Engines at Smithfield Show, 619
Oil Marine Engine, 2500 I.H.P., Reiherstieg-Carels, 378
Practical Considerations for Diesel Engine Users, 599
Railway Traction and the Explosion Engine, 178
Semi-Diesel Crude Oil Engine, Westinghouse Brake Company, 459
Semi-Diesel Engine, Petter, 619
Semi-Diesel Oil Engine, Clayton and Shuttleworth, Limited, 621
Semi-Diesel Two-Cycle Vertical Engine, Robey, 19
Tar Oils for Diesel Engine, 441; (Letters), 501, 657
Three-cylinder Double-acting Engines, Blohm and Voss, 379
Toussaint Marine Oil Tug-boat Engine, Weser Aktien-Gesellschaft, 402
Vertical Paddle-boat Engines, Fried. Krupp, 379
Werkspoor-Diesel Engine, 1100 B.H.P., of the Motor Ship Juno, Nederlandsche Fabriek, 514 (*Two-page Supplement, November 15th*, 1912). (*Two-page Supplement, November 22nd*, 1912)

Steam Engines:

Bicentenary of the Steam Engine, Newcomen Engine, 485
Horizontal Stumpf Engine, Robey, 19, 20
Newcomen Pumping Engine of 1712, 485; (Letters), 544, 570, 657, 686
Rolling Mill Engines, 12,000 H.P. Vertical, Richardsons, Westgarth and Co., 252, 260; (Correction), 260
Simple Engine Operating with Steam Less than that of Atmospheric Pressure, Professor R. C. Carpenter, 22
Single-cylinder Portable Engine and Traction Engine, Davey, Paxman and Co., 620
Steam Engines for Driving Reversing Rolling Mills, E. G. Sehmer, 174
Steam Engines at Smithfield Show, 619
Steam Ploughing Superheated Engine, John Fowler and Co., 621
Traversing Winding Engine in Dolcoath Mine, Morgan, 113

ENGINEERS and China, 521; (Letter), 528
Engineering and the Amenities, Professor A. Barr, 253, 261
Engineering and Machinery Exhibition—*see* Exhibitions
Engineering Progress Abroad, 72, 207, 309, 438, 543, 655; (Letters), 259, 339
Entropy, 202; (Letter), 259
Ejector, Vacuum Brake, Davies and Metcalfe, 102
Exact Determination of the Constants of Empirical Formulæ, M. E. J. Gheury, 267; (Letters), 528
Excavating Ploughs for American Earthwork, 147
Excavator, Motor-driven, at Buenos Aires, 520, 525
Excavators, Drag-line and Grab Bucket, Bagley, Heyworth, Page and Channon, Page-Lidgerwood, 193
Andresen, Hayward, Rawson, Trenching and Ditching Machines, 216
American, Bentson, Buckeye, Dalton, Miller, Parsons, 268, 278
Marion Ditch Excavating Machine, 363
Atlantic, Bucyrus, Thew, Vulcan, and other Excavators, 471
Austin Drainage Excavator Company, Hoffron Scraper Trenching Machine, Helm, Hovland, Liebe, Lidgerwood, Stevens, Vulcan Steam Shovel Company, 336, 363, 471

EXHAUST Gas Turbine, Churchill-Shann, 206

EXHIBITIONS:

Aviation at South Kensington, 671
Engineering and Machinery at Olympia (For Separate Tools *see* Machine Tools), 380, 409, 429, 458; (Letter), 474 (*Twenty-page Supplement, October 18th*, 1912)
Ghent Exhibition, 307
Motor Car Show at Olympia, 489, 510, 541; (Correction), 540
Regulation of International Exhibitions, 416
Royal Agricultural Show at Doncaster, 18, 36
Smithfield Club Cattle Show, 619

EXPERIMENTS with Explosives, 124
Explosions of Carbonaceous Dust, 16
Explosions, Gaseous, Dugald Clerk, 270
Explosives, Annual Report on, 20
Explosives, Experiments with, 124

W

WATERWAY Schemes, Huge, 3
Wireless Telegraphy on German Ships, 348
Woolwich Footway Tunnel, 455
Wreck of the Airship Schwaben, 2

Y

YORKSHIRE Colliery Disaster, 110

Paragraphs.

A

ABYSSINIA Provided with Hydro-electric-driven Cartridge Factory, 65
Accidents Due to Motor Omnibuses and Electric Tramcars, 65
Accidents Due to Tramcars and Motor Cars, 597
Accidents in Starting an Economiser, 149
Acetylene Gas, Great Increase in Development and Application, 303
Acetylene, Legitimate and Illegitimate Uses, 121
Acid Resisting Alloys, 83
Advertising by Quartz Mercury Vapour Lamp in Chicago, 493
Aerial Ropeway for Passengers up Tyrolese Mountain, 570

AERONAUTICS

Aerial Navigation in Japan, 277
Aeroplanes and Aviators for the Balkan States, 493
Airship No. 2 for the Admiralty, 225
Airships and Atmospheric Disturbance, 199
Guidoni Hydro-Flying Machine, 65, 225
Hydro-aeroplanes for the Navy, 331
Hydro-Flying Machine, Lieut. Calderasa, 225
Hydro-Flying Machines for Communication with a Fleet near Home Ports, 13
Hydroplane for the Admiralty, Trial at Sheerness, 439
Italian Airship M1, 356
Italian Airship for Military Purposes, Successful Trials, 149
Night Flying by Searchlight, 303
Volunteer Air Corps for German Army, 175
Zeppelin Airship Viktoria Luise, Successful Trip, 65

AGRICULTURAL Camps to Demonstrate Fertility of the Tripolitaine, 65
Agricultural Motors in the Argentine, Trials of, 316
Alloys, Acid Resisting, 83
Aluminium Alloys, To Blacken, 519
Aluminium Shot, 571
Aluminium Solders, 571
Aluminium for Use when Cold: Advantages, 297
Anthracite Coal, Large Deposits in the Susquehana River, 149
Apprenticeship System, Need of Revival, 39
Artesian Tube Well at Amersham, C. Isler and Co., 180
Artesian Wells in Westminster, Le Grand and Sutcliffe, 78
Artificial Marble, New Process of Manufacture, 385

ASSOCIATIONS, INSTITUTIONS & SOCIETIES:

Association, British Engineers':
Names of Officers and Members, 518
Association of Engineers, Manchester:
Visit to National Gas Engine Company's Works, 412
Association, Incorporated Municipal Electrical:
Annual Convention, 637
Institute of Chemistry:
New Buildings Fund, 366
Institute, Iron and Steel:
Autumn Meeting, 49
Changes and Elections, 454
Institute of Marine Engineers:
Annual Dinner, 530
Applied Stability of Ships, J. H. Heck, 438
Institute, Mining, of Scotland:
Annual Dinner, 631
Institute, Royal Sanitary:
Twenty-eighth Congress, Earl Fortescue as President, 570
Institution of Automobile Engineers:
Chassis Output at Fixed Price, Series of Papers on, G. Campbell-Taylor, 393
Visit to French Automobile Works in the Paris District, 21
Visit to London Aerodrome at Hendon, 365
Visit to National Physical Laboratory, 488
Visit to the United States, 657
Institution of Civil Engineers:
Awards for Papers, 412
Bayliss Prize Award, 617
Building Progress and Arrangements, 448
James Forrest Prize, 545
Legacy from Sir James Inglis, 130
Palmer Scholarship, 510
Association of Birmingham Students:
Problems and Difficulties in Connection with Waterworks, F. W. Macaulay, 545
Institution, Junior, of Engineers:
Visit to Fairfield Works of Bryant and May, at Bow, 365
Visit to Marconi Wireless Telegraph Company's Works at Chelmsford, 78
Visits to H.M. New Stationery Office and H.M. Office of Works' Stores, 606
Institution of Naval Architects:
Elgar Scholarship Raised in Value, 664
Post-graduate Scholarship in Naval Architecture, 1913, 660
Scholarship Award, 187
Institution, Royal:
Christmas Juvenile Lectures, Programme, 486
Meetings and Elections, 26, 486, 604
Programme up to Easter, 604
Society, American, of Naval Architects and Marine Engineers:
Meeting and Programme, 506
Society of Engineers:
Annual Meeting; Election of Council and Officers; Award of Premiums, 662
Generation and Electrical Transmission of Power for Marine Transportation, W. P. Durtnall, 545
Town Planning from an Engineering Aspect, E. R. Matthews, 427

ASSOCIATIONS, INSTITUTIONS, AND SOCIETIES *(continued)*:

Society, Physical:
Annual Exhibition, 486, 611
Society, Royal, of Arts:
Annual Meeting, Report and Elections, 26
AUTOGENOUS Welding Used by the Romans, Professor Gowland, 671
Automatic Coaling Plant for Delagoa Bay, 39
Automatic Stop Motion for Laundry Machinery, M. Glover and Co., 585

B

BALL Bearings, Application of, to Engineering, G. W. Goodchild, 597
Bavarian Nitrogen Works at Munich, 385
Beater Tubs of Reinforced Concrete, 597
Bicycle Statistics in France, 39
Birmingham Gun Trade, Great Activity, 251
Blast Furnaces and Rolling Mills in France, 675
Board of Trade Report on Boiler Failures; Cast Iron Unsuitable for High-pressure Steam Pipes, 545
Boiler Firing with Fuel Oil, Satisfactory Results, 175
Boiler Flues, Mechanical Cleaning, 149
Boiler Settings, 519
Boilers, Steam, Setting of, 199, 225
Boilermakers' Society Report, 465
Borough Polytechnic Institute, 634
Brickmaking in Denmark, 264
Bridge Test on the New York Barge Canal, 331
Brighton and Trolley Omnibuses, 519
Building, Three-storey Brick, Transported Bodily 300ft., 439
Bulkheads, Water-tight Doors in, 78
Burst Boiler Tube, Results of Close Examination, 303

C

CABLE Completed between Syracuse and Tripoli, 93
Canadian Ores, Electric Smelting of, 623
Canal, Terneuzen, from Flushing to Ghent, 649
Cañyon Crossing 455ft. below the Hydraulic Grade of the Los Angeles Aqueduct, 675
Car Ferry Fitted with Petrol Motors, 597
Carbon Dioxide and Oxygen, Experiments to Determine Percentages in Atmosphere which Fail to Support Combustion, 13
Castor Oil Condemned for Internal Lubrication, 149
Celluloid Handling and Storing, Home-office Committee, 413
Celluloid Precautions in Birmingham, 149
Census of Production, 49
Chemicals, Storage of, and Attendant Risks, Dr. Julius Aeby, 571
Chicago Vehicles, Electric and Petrol, 65
Churns, Gramophones and Dairymaids' Nerves, 519
Coal-cutting Machines in United States Mining, 623
Coal-dust Explosion Prevention, 175
Coal, Manufacture of Artificial, 331
Coal Mines, Shot-firing in, Use of Squibs, 519
Coal Mining, Modern, W. Bentley, 519
Coal-tar Oil, Increased Consumption for Diesel Engines and Otherwise, 121
Coinage at the Mint, Statistics of 1911, 465
Coining Press, Huge Size, for the French Mint, 493
Coke Ovens to Deal with Coal Dust, 545
Coke Production and Blast Furnace Working in China, 357
Cold Water Corrosion, Results of Tests, 303
Colliery Cable Suspension, Importance of Work, 121
Colliery Electrical Plant, Installation of, 623
Commercial Motor Vehicles, Night Shelter Accommodation for, 175
Competition for Miners' Lamps, 426
Concrete Disintegration in Drains, 303
Concrete, Liquid, Experiments in Lateral Pressure, 199
Concrete, Physical Properties of, 121
Concrete, Reinforced, W. N. Twelvetrees, 102
Concrete for Reinforced Structures, New Method of Pouring, 251
Condensers and Maintenance of a Vacuum, 121
Cooling Towers, Need of Care, 331
Cornwall Dinner, 645
Corrosion, External, of Fuel Economisers, 157
Corrosion of Iron by Stray Electric Currents in the Ground, 208
Crane Controller, Electric, 321
Creosote as Source of Disease, 93
Crewe, The Development of, 606
Crystal Palace Engineering School, Awards for Papers, 686
Cylinder and Steam Kettle Failures, Board of Trade Report, 649

D

DAIMLER Petrol-electric Omnibus, 649
Diesel, Dr. R., on Oil Locomotives, 39
Diesel Engine, Small Quantity of Cooling Water Required; Adaptability for Variety of Inexpensive Fuels, 225
Diesel Engine from the Users' Standpoint, 439
Diesel Engines for Large Power Stations, 277
Docks, East India, Improvements Projected, 82
Dover Harbour, Closing up of the Western Entrance by the Admiralty, 385
Drainage Scheme for Dinard, 357
Drawing Table Lighted from Beneath, 93
Dynamometer, Direct-reading, 331

Sahara, Exploration by French Government, and Projected Railway, 597
Sao Paulo Railway Extension, Consular Report, 121
Sardinian Railway Extension and Railway Strike, 39
Scale and Water Purification for Locomotive Boilers, 277
Semaphore Signal Changes in the United States, 357
Shunting 7-Ton Battery Locomotive for Moving Cars in Shops and over Unelectrified Track, 385
Shunting Locomotive for New York, New Haven, and Hartford Railway, 39
Signal Post Plates in the London District of the Midland Railway, 331
Single-phase Motors and Control Systems on American Railways, 43
Single-phase Series Motor for Alternating Current Traction, 13
Single-phase System in France, Scanty Use, 149
Smoke Reduction by Use of Underfeed Mechanical Stokers and Suitable Coal, 121
Steam Consumption Averages on the London and North-Western Railway, 204

RAILWAYS AND TRAMWAYS (*continued*):

Superheater Locomotives, Steam Regulations when Drifting, 439
Swedish State Railway Flashlight Signalling, 545
Swiss Federal Railways, Change in Numbering Class of Carriages, 13
Tank Locomotives for Express Work, Question of Suitability, 623
Telephone System of Train Despatching on the Grand Trunk Railway, 675
Telescoping of Carriages, Methods of Prevention, 277
Test for Insulators Used in Feeder Construction, 303
Tests of Rails at Lehigh University, 675
Tourist Inducements by Cinematograph, 623
Trackless Trolley System for Shunting Goods Wagons at Altona, 149
Train Orders by Telegraph, U.S.A. Monument to Charles Minot, 357
Tramcar, New Type for Brooklyn Rapid Transit Company, 251
Tramcars, Trailer, for London, 106
Tramway Extension in the Black Country, 385
Tramway Rails' Effective Value, W. Thorn, 39
Tramway Trailers, Statistics, 277
Tramways in Bangalore, 277
Tramways, Motor and Trolley Omnibuses, Respective Values, 65
Tripoli to Gargaresch, Prolongation of Line Projected, 175, 331
Trolley Heads of Electric Tramcars, 93
Trolley Omnibus Scheme for Brighton and Hove, 65
Trolley Omnibuses Employing Alternating Current, 465
Trolley Wires, Steel or Copper, Comparison, 13
Tunnel between Calgary and Vancouver to Avoid Snow Slides, 385
Turbine Set for Locomotive Headlights, 385
United States Railways Using Electricity, 493
Variable Blast Pipes for Locomotives, 623
Vauxhall Railway Accident, 258
Wagons, Railway, Demand for, as an Indication of Improved Trade, 303
Water-tube Boilers for Locomotives, J. Robert, 199
Yangtse Kiang River, Proposed Electric Railway Under, 465
Yorkshire Collieries and Railway Facilities, 39

RAT-KILLING Invention for Ship Use, 493
Reciprocating Engines, A New Analysis of the Cylinder Performance of, J. P. Clayton, 93
Reinforced Concrete, W. N. Twelvetrees, 102
Rioters Tried on Cinematograph Evidence, 175
Road Board, 47
Road Board Advances for Road Improvement, 412
Road Congress, Third International, 22, 474, 636
Road Repair and Motor Omnibuses, 675
Roads, Machines for Construction and Maintenance of, 12
Rolling Mill Driving, Power Required, 251
Rubber, Natural and Synthetic, F. Mollwo Perkin, 649
Rust Prevention by Zinc, New Method of Application, 413

S

SAWMILL Refuse as a Fuel in Gas Producers, The Value of, C. E. Snypp, 225
Scotia Dam of the New York State Barge Canal, Pneumatic Caissons Employed, 357
Scrap Metal, Market in Italy, 597
Scrap Metal, Possibilities of Reclaiming, 277
Screw Connections, Treatment with Graphite to Prevent Rusting on, 357
Seaweed Treated for Commercial Purposes, 149
Seven Wonders of the World: Order of Precedence, 385
Sheet Mill Output in America, Increasing Demand, 39

SHIPS AND SHIPPING MATTERS:

Barges of Reinforced Concrete on the Panama Canal, 277
Deep Sounding Record by German Survey Ship, 413
Demerara, R.M.S.P., 186
"Drake," Bird or Admiral? 439
Eavestone, Trial of Furness, Withy and Co.'s Sea-going Diesel Motor Ship, 134
Fastest War Vessels Afloat, Keel Laying of Armoured Cruiser, 493
Firedrake, H.M. Destroyer, Successful Trials, 39
Italian Cruiser Libia, Late Abdul Hamid, 545
Italian Destroyer Ardito Launched, 519
Japanese Naval Orders for France and England, 597
Lurcher, H.M. Destroyer, Successful Full-speed Trials, Yarrow and Co., 318
Oil-burning Hamburg–American Liner Christian X., 357
Oil Fuel for the Navy, 493
Paraffin Motor Barge for the United Alkali Company, 649
Shipbuilding Establishment at Reval, 357
Shipping Exhibition at Amsterdam, 610
Steel Works and the Shipbuilding Boom, 582
Submarine Salvage Vessels for the Admiralty, 218
Submarines, Tests of Italian Crews in Long Periods under Water, 277
Submersible for United States Navy, 277
Thunderer's, H.M. Battleship, Broadsides to Test the Fire Director Invention of Admiral Sir P. Scott, 277
Tools for Electricians in the Navy, 571
Tug, Electrically Propelled, for Dock in India, 65
Turbine Steamer Greenore, 264
Turbines, Geared, for Slow-speed Cargo Vessel Cairnross, 571
Turbines, Geared Steam, for Marine Propulsion, 675
Turbines of the Italian Dreadnought Giulio Cesare, 571
United States Naval Annual Report, 675
United States Shipbuilding Statistics, 199

SMOKE Abatement Inspectors, Examination for, 180
Society Islands and the Panama Canal, 199
Staffordshire Metallurgical Old Boys' Association, 534
Steam Generation: Defective System; Gas Firing Recommended, G. Wilkinson, 303
Steam Regenerative Accumulators, D. R. Morrison, 311
Steam Traps and Necessary Care, 102
Steam Traps, Wastefulness of, 623
Steam Turbine and Blade Cutting in Impulse Wheels, 175
Steam Turbine Running, Need of Care, 251
Steam Turbine, The Kienast, 175
Stratfordians' Association, 622
Street Cleaner Worked on the Vacuum System, 93
Stumpf Engine, Powerful Type, 331
Submarine Bell near the Lizard, 181
Sun Power Plant for Irrigation Purposes, 175
Swimming-baths, Electrolytic Disinfectant in Relation to, Dr. J. G. Forbes, 13

T

TECHNICAL College Research Work, 623
Telephone Service in London, Unsatisfactory Condition, 121
Telephone Time-saver, 199
Telephones, Automatic, 148
Telephones, Pocket Portable, for Police Use in Germany, 269
Telephonic Communication between Berlin and Stockholm, 22
Textile Machinery at the Ghent Exhibition, 448
Thermometers in the Engine-room, 478
Tidal Ebb and Flow for Power Purposes, Hamburg Experimental Plant, 465
Timber Piles Coated Against Insect Destruction, 357
Timber for Telegraph Poles, Immense Consumption in America and Canada, 649
Tin Recovery from Old Cans, 675
Torpedo Range at Loch Long, Argyllshire, 277
Tower Higher than the Eiffel, Proposed Erection at Düsseldorf, 439
Town Planning Competition, 559
Town Planning, Summer School of, 106
Tramcars, Motor Omnibuses, and Road Maintenance, 303
Transmission of Power by Ropes, E. Kenyon, 331
Transport Appliances for Factory Material, 175
Transporter Bridge, Widnes and Runcorn, Change from Electrical to Rope Haulage, 39
Tungsten, Ductile, Applications of, C. G. Fink, 649
Tungsten for Use in Crookes or X-ray Tubes, 493
Turbine Blading, Old and New, 195
Turbine Driving for Steam Generation in Dye Works, 545
Turbine, Improved New Type, 251
Turbines and the Critical Speed of the Rotor, 199
Turbines, Exhaust Steam and Mixed Pressure, Effect of Work of Sir C. Parsons and Professor Rateau, 225
Turbines and Flooded Lubrication, 93
Turbines—*see also* Ships
Turf as Fuel in the Faroe Isles, 331
Twist Drills, English and American, Cost and Duty, 623
Tyne, Launches During August, 251

U

UNIVERSITY of Bristol: Examinations List in Engineering, 135
University of London: Goldsmid Scholarship, 187

V

VACUUM Cleaners and Difficulties, 93
Valves Turning Clockwise or the Reverse, Need of Standardisation to Avoid Risks, 385
Ventilation by Individual Air Duets, Experiments in Schools, 199
Vibration, Comparative, of Reinforced Concrete and Steel with Masonry Tests by French Railway, 385
Victorian Water Commission, Results of Survey, 385
Volatility of Metals, Professor T. Turner, 571

W

WATER SUPPLY:

Boston and District Water Consumption, 357
Fraserburgh New Water Supply, 13
Sterilisation of Water by Electrically Produced Ozone, 675

WATER-TIGHT Doors in Bulkheads, 78
Watt, James, R. H. Kirton, 534
Welded Lap Joints in Boiler Plates, German Tests of Heating, 149
Welding and Soldering Fluxes, 439
Well Boring at Shoeburyness, 180
Well at the New Marconi Works, C. Isler and Co., Limited, 49
Westinghouse Steam Turbo-generators, Developments, 623
Whitehall Club Dinner, 514
Wilbur Wright's Last Letter, 13
Willcocks, Sir William, and Gardens of Eden, 65

WIRELESS TELEGRAPHY:

Condensers Used in Wireless Telegraphy, W. Torikata and E. Yokoyama, 597
East Coast Chain of Wireless Stations, 465
Foreign-going Vessels and Statutory Regulations for Wireless Equipment, 199
French Fishing with Wireless Equipment, 277
Germany and Wireless Telegraphy, 22
United States Naval Wireless Station Tested, 597
Wireless Compass for Ship's Use in Fog, 251
Wireless Stations and Earthed Wires, 39
Wireless Telegraphic Waves Received from the Sun as the Source of All Human Energy, 675

WIRELESS Telephony between Rome and Tripoli, 675
Women to Learn Plumbing, Carpentering, &c., 303
Woolwich and North Woolwich Tunnel, 65

Y

YARROW Convalescent Home, 92
